2PIGRECOE

Integrated
Engineering
Management

A Civil Engineering
Company

THE COMPANY

2PIGRECOE was born in 1996 with the aim to provide **comprehensive and integrated engineering design services**, together with project, cost and construction management services.

2PIGRECOE is focused on management of jobs and services in the field of the **civil and infrastructure engineering**, spanning from industrial and environmental fields to public and private works, in Italy and in foreign countries, in the following sectors:

- **Roads and Railroads**, such as Tracing, Junctions and related works, etc.
- **Buildings**, such as Residential, hotel, hospital, manufacturer, for private public offices and sport structures, etc.
- **Structures**, such as Bridges, viaducts, galleries, dams, structures in reinforced concrete, compressed reinforced concrete and steel, etc.
- **Plants**, such as HVAC, water-sanitary, firefighting, electrical, aqueducts and sewer pipes, piping, radio mobile stations, etc.
- **Environmental**, such as Studies of impact, rubbish, waters treatment, etc.
- **Security**, such as Elaboration of emergency plans according to actual laws
- **... and much more.**

Over the years, **2PIGRECOE** has reinforced its skills and competency in various areas, specializing itself, in particular, in the fields of the **industrial engineering, infrastructures, environment and plants.**

Since 2014, **2PIGRECOE** joins **ISS International SpA Group.**

WE INVEST. JUST FOR **YOUR BUSINESS**

ACTIVITY SECTORS

INDUSTRIAL FIELD

- Oil & Gas Upstream
- Oil & Gas Midstream and Downstream
- Pharmaceutical
- Chemical & Petrochemical
- Power Generation & Distribution
- ... and much more.

INFRASTRUCTURES

- Roads
- Bridges
- Railways
- Jetty
- Tunnels
- Viaducts
- ... and much more.

CIVIL & MUNICIPAL

- Training Centres (scholastic, university, etc.)
- Building for Research
- Building for Health Care
- Residential Building
- Hospitals
- Hotels
- Tourist Villages
- Sport Structures
- Shopping Center
- Office-Administrative Centres
- Urbanization
- ... and much more.

SERVICE RANGE

Civil engineering is a skilled engineering discipline that deals with the construction, design and protection of the substantial and naturally built surroundings, including works like infrastructure, bridges, canals, dams, plants and buildings.

2PIGRECOE can offer a wide range of civil engineering services spanning from Infrastructure area up to Industrial area during the entire plant lifecycle development.

2PIGRECOE is a civil engineering companies with a strong expertise in engineering studies and consultant services for building infrastructure, waste management and remediation, road construction and logistic complex management.

2PIGRECOE can design, manage and carry out the Engineering phase to fulfil your contract.

The following main activities may be offered by **2PIGRECOE**:

CIVIL WORKS

BUILDINGS

STRUCTURES

INFRASTRUCTURES
